Integrations & Security: OAuth 2.0, JWT, RBAC, Authentication, Wonde API, Skolon SSO, Ontraport

Payments: Stripe, PayPal, Worldpay

Tools & Practices: Git, GitHub, Docker, Linux, Postman, Agile/Scrum, SDLC, Code Review, Debugging

Professional Experience

Senior Laravel/PHP Full Stack Developer – Nubridge Publishing Limited (United Kingdom) | Remote

January 2020 – Present

Develop and maintain enterprise SaaS applications supporting educational institutions across the UK.

- Develop scalable web applications using **PHP, Laravel, JavaScript, jQuery, AJAX, Bootstrap, and MySQL**.
- Build secure **REST APIs, webhooks, and backend services** for web and mobile applications.
- Integrate **Wonde, Skolon SSO, Ontraport, Stripe, PayPal, and Worldpay**.
- Manage **AWS EC2, S3, CloudFront, Cloudflare**, and production deployments, including large-media solutions.
- Optimize database queries and application performance, troubleshoot production issues, and maintain reliable applications.
- Participate in **Agile planning, code reviews, technical discussions, releases, architecture, and mentoring**.

Senior Software Developer – Cyber Infrastructure Pvt. Ltd.

November 2014 – January 2020

- Developed enterprise web applications using **PHP, Laravel, CodeIgniter, Joomla, JavaScript, jQuery, and MySQL**.
- Built custom CMS, business applications, **REST APIs**, and third-party/payment integrations.
- Designed databases, optimized SQL queries, and improved application performance.
- Contributed to **deployment, production support, troubleshooting, maintenance, and Agile development**.

Software Developer – Syscraft Information System Pvt. Ltd.

August 2012 – October 2014

- Developed and maintained **PHP/MySQL applications, backend modules, and database-driven business solutions**.
- Built dynamic web applications, implemented features, resolved production issues, and collaborated with senior developers.

Key Projects & Products

Language Angels(Web Platform & Mobile APIs)

Senior Full Stack Developer | <https://www.languageangels.com>

- Led development and maintenance of the **Laravel/PHP web platform and REST APIs** supporting UK educational institutions.
- Built scalable **AWS S3 video uploads** using pre-signed URLs and multipart chunk processing.
- Implemented **RBAC**, third-party integrations, and secure backend services.
- Managed **AWS EC2, S3, CloudFront, Cloudflare** and optimized application/database performance.
- Collaborated directly with UK product managers and stakeholders.

Tech: PHP, Laravel, JavaScript, MySQL, REST APIs, AWS EC2, S3, CloudFront, Cloudflare, Wonde API, Skolon SSO, Ontraport, Stripe, PayPal, Worldpay

Languages CPD Hub -Professional Development Platform

Senior Full Stack Developer | <https://www.languagescpdhub.com>

- Developed Laravel/PHP backend functionality for **CPD courses, webinars, and educational video content**.
- Implemented scalable **AWS S3 multipart uploads** and integrated Algolia Search.
- Developed REST APIs, RBAC, third-party integrations, and performance improvements.

Tech: Laravel, PHP, MySQL, AWS S3, CloudFront, Algolia, Ontraport, REST APIs

Glurbs -Learning & Engagement Platform

Senior Full Stack Developer | <https://www.glurbs.com>

- Developed backend modules, **REST APIs, business logic**, and new application features.
- Optimized databases and supported cloud deployments, production stability, and performance.

Tech: PHP, Laravel, MySQL, REST APIs, AWS

BookingFlow (Personal Project)

Founder & Full Stack Developer: Github:

<https://github.com/vishnu91sikarawr/bookingflow-travel-platform>

- Designed and developed a **travel booking SaaS platform** using Laravel and Vue.js.

- Built REST APIs, authentication, RBAC, and **Vue.js booking workflows** including bus search, trip selection, and seat selection.
- Implemented database architecture, admin dashboards, reusable components, Vite, and Docker-based development.

Tech: Laravel 12, PHP 8.2+, Vue.js 3, JavaScript, MySQL, API, Vite, Docker, Git

BrokersAdda- Real Estate Platform

Programmer & Database Designer : brokersadda.com

- Developed PHP/MySQL backend for **property management, lead management, and reporting**.
- Implemented property search/filtering for sale and rental listings and designed supporting database structures.

Tech: PHP, MySQL, JavaScript, jQuery, AJAX, HTML, CSS, Ubuntu

Online Car Rental & Booking Platform

Programmer & Database Designer | addcarrental.com

- Independently developed Core PHP/MySQL **car rental and booking functionality**.
- Built backend car management and frontend car search using JavaScript/AJAX.

Tech: Core PHP, MySQL, JavaScript, AJAX

BR Group— Corporate Website

Requirement Analysis & Programmer | brginfra.com

- Developed an informational corporate website using **Core PHP** and contributed to internal HR/reporting functionality.
- Performed requirement analysis and database-driven development within a 4-member team.

Tech: Core PHP, MySQL, JavaScript, AJAX

Education

Bachelor of Computer Applications (BCA)

MAIPS College, Gwalior, Madhya Pradesh | 2012
